

ENCLOSURE 1

NOTICE OF VIOLATION

South Carolina Electric & Gas Company
V. C. Summer Nuclear Plant

Docket No . 50-395
License No. NPF-12

During an NRC inspection conducted on March 28-29, 1994, a violation of NRC requirements was identified. In accordance with the "General Statement of Policy and Procedure for NRC Enforcement Actions," the violation is listed below:

10 CFR 61.56(a)(3) requires the licensee to meet minimum requirements for all classes of waste and is intended to facilitate handling at the disposal site and provide protection of health and safety of personnel at the disposal site. Specifically, solid waste received by the burial site for disposal, containing liquids, shall contain as little free standing and noncorrosive liquid as is reasonably achievable. In no case shall these liquids exceed one percent (1.0%) of the total volume.

Contrary to the above, on February 22, 1994, a shipment was made to the burial site which contained approximately 90 gallons of free standing liquids. This was in excess of the allowable limits of 13.46 gallons (1.0%) for a shipment of this size.

This is a Severity Level IV violation (Supplement V).

Pursuant to the provisions of 10 CFR 2.201, South Carolina Electric & Gas Company is hereby required to submit a written statement or explanation to the U.S. Nuclear Regulatory Commission, ATTN: Document Control Desk, Washington, D.C. 20555 with a copy to the Regional Administrator, Region II, and a copy to the NRC Resident Inspector at the facility that is the subject of this Notice, within 30 days of the date of the letter transmitting this Notice of Violation (Notice). This reply should be clearly marked as a "Reply to a Notice of Violation" and should include for each violation: (1) the reason for the violation, or, if contested, the basis for disputing the violation, (2) the corrective steps that have been taken and the results achieved, (3) the corrective steps that will be taken to avoid further violations, and (4) the date when full compliance will be achieved. If an adequate reply is not received within the time specified in this Notice, an order or Demand for Information may be issued as to why the license should not be modified, suspended, or revoked, or why such other action as may be proper should not be taken. Where good cause is shown, consideration will be given to extending the response time.

Dated at Atlanta, Georgia
