

March 21, 1991 DESIGNATED ORIGINAL

Docket Nos. 50-266  
and 50-301

Mr. C. W. Fay, Vice President  
Nuclear Power Department  
Wisconsin Electric Power Company  
231 West Michigan Street, Room 308  
Milwaukee, Wisconsin 53201

Dear Mr. Fay:

SUBJECT: STAFF AUGMENTATION IN EMERGENCY SITUATIONS

By letter dated January 25, 1991 (NRC-91-107) you advised us of a change to a fact which you reported in your February 18, 1982 plan for meeting the minimum shift staffing and staff augmentation guidance of NUREG-0654. The NUREG recommended the capability to augment plant staff within 30 minutes of an emergency declaration. Your 1982 response indicated a commitment to respond within the 30-minute period and stated further that all affected personnel lived within 15 miles of the plant site. Your January 25, 1991 letter restated your commitment to the 30 minute response capability. However, you reported that all of the affected personnel no longer live within 15 miles of the site.

Since the distance of 15 miles is not required in order to comply with the guidance of NUREG-0654, we have no comment on the change.

Sincerely,

~~Original signed by~~
