

MAR 20 1991

URFO:DCW  
Docket No. 40-8084

Rio Algom Mining Corp.  
ATTN: R. S. Pattison  
La Sal Route  
Moab, Utah 84532

Dear Mr. Pattison:

Thank you for your letter dated January 15, 1991, advising us of your change in the ground-water sampling schedule. You propose to change the sampling schedule from the second half of each sampling period to the first half of each sampling period to facilitate laboratory result turnaround. Your license allows the flexibility to collect data at your discretion as long as it is collected during the specified monitoring period. This proposal was discussed by phone with Gary Konwinski of my staff on January 14, 1991. Since a license amendment is not needed, no further action is necessary.

Sincerely,

*Original Signed By:*
