Gentlemen:

Subject: NRC Inspection Report No. 50-271/91-07

This refers to the routine resident safety inspection conducted by Messrs. H. Eichenholz and T. Hiltz of this office on February 12 - March 16, 1991, at the Vermont Yankee Nuclear Power Station, Vernon, Vermont. The results of the inspection were discussed with Mr. D. Reid at the conclusion of the inspection.

During this inspection, we reviewed your response to security events and observed a high level of management involvement. In particular, we noted a good questioning attitude and proper oversight of contracted security activities. Our observations indicate a continued improving trend in this area.

We appreciate your cooperation.

Sincerely,

Original Signed By:
