This refers to the routine safety inspection conducted by Messrs. Nicolosi and Jones of this office on January 4, 1983 of activities authorized by NRC License Nos. 08-04289-06 and 08-04289-08 and to the discussions of our findings held by Mr. Nicolosi with Mr. S. P. McCoy at the conclusion of the inspection and to a subsequent telephone discussion between Dr. Sabol and Mr. Nicolosi on January 10, 1983.

The inspection was an examination of activities conducted under your license as they relate to radiation safety and to compliance with the Commission's rules and regulations and the conditions of your licenses. The inspection consisted of selective examinations of procedures and representative records, interviews with personnel, measurements made by the inspector, and observations by the inspector.

With respect to NRC License No. 08-04289-06, our inspector also verified the steps you have taken to correct the violations brought to your attention in the enclosure to our letter dated September 17, 1980. We have no further questions regarding your action at this time.

Based on the results of this inspection, it appears that one of your activities was not conducted in full compliance with NRC requirements, as set forth in the Notice of Violation, enclosed herewith as Appendix A. This violation has been categorized by severity level in accordance with the NRC Enforcement policy (10 CFR 2, Appendix C) published in the Federal Register Notice (47 FR 9987) dated March 9, 1982. You are required to respond to this letter and in preparing your response, you should follow the instructions in Appendix A.
