

February 1, 1983

Mr. D. J. Sreniawski, Chief  
Materials Radiation Protection  
Section 2  
Nuclear Regulatory Commission  
Region III  
799 Roosevelt Road  
Glen Ellyn, Illinois 60137

RE: License Number 34-15046-01

Dear Mr. Sreniawski:

The following is submitted in reference to Notice of Violation  
Our Lady of Mercy Hospital, Cincinnati, Ohio, License  
Number 34-15046-01 regarding Inspection conducted January 11 and  
12, 1983.

1. License Condition Number 18 - Appendix I "Area Survey Procedures"-  
Corrective action taken on January 13, 1983. All elution,  
preparation and injection areas are being surveyed daily  
with an appropriate low-range survey meter and decon-  
taminated if necessary.

Daily Logs will be maintained and reviewed at the Quarterly  
Radiation Safety Committee Meeting.

2. License Condition Number 18 - Item Number 14 entitled "Procedures  
for Safely Opening Packages Containing Radioactive Material" -  
As of January 13, 1983, all incoming packages containing  
radioactive material are being monitored and recorded at  
three feet and at the surface.

These Records will also be reviewed at the Quarterly  
Radiation Safety Committee Meetings.

3. License Condition Number 18 - Appendix L entitled "Radiation  
Safety Procedures for Therapeutic Use of Sealed Sources" -  
As of January 14, 1983, patients receiving Sealed Sources  
will be surveyed and exposure rate measurements will be  
recorded at 3 feet from patient with source implanted, at  
the patients' bedside, at 3 feet from the bed and the  
entrance to the room.

These surveys will be recorded and reviewed at Quarterly  
Radiation Safety Committee Meetings.

RE: License Number 34-15046-01

I trust these will be acceptable actions to correct our non-compliances to the above policies.

I wish to thank Mr. R. J. Caniano for the time he spent in reviewing the various problems. He was very helpful and informative.

If any further information is required, please let me know.

Sincerely,

Roger J. Leinberger  
Radiology Department
