BRUNSWICK STEAM ELECTRIC PLANT, UNIT NO. 2  
DOCKET NO. 50-324/LICENSE NO. DPR-62  
WITHDRAWAL OF REQUESTS FOR LICENSE AMENDMENTS  
ONE-TIME EXTENSION OF 18-MONTH BATTERY SURVEILLANCES AND  
18-MONTH SURVEILLANCE INTERVAL EXTENSIONS

Gentlemen:

On February 19, 1991 (NLS-91-037) and on March 28, 1991 (NLS-91-087), Carolina Power & Light Company requested changes to the Technical Specifications for the Brunswick Steam Electric Plant, Unit 2. The first request sought a one-time-only extension of the 18-month surveillance interval for the 125-volt batteries and charge's as required by Technical Specifications 4.8.2.3.2.c and 4.8.2.3.2.d. The second request sought a one-time-only extension of the 18-month interval for certain surveillance requirements associated with ECCS Actuation Instrumentation and the Service Water System. The intent of these amendment requests was to eliminate the need for a mid-cycle surveillance outage on Unit 2.

On March 29, 1991, Unit 2 entered an outage, during which the surveillances associated with the February 19, 1991 and March 28, 1991 amendment requests will be performed. As such, there is no longer a need for the requested surveillance requirement extensions. Therefore, Carolina Power & Light Company is withdrawing these two license amendment requests.

The Company appreciates the Staff's efforts to process these requests in support of the requested issuance date. Please refer any questions regarding this submittal to Mr. M. R. Oates at (919) 546-6063.

Yours very truly,

S. D. Floyd  
Manager
