Inspection Summary

Inspection on January 26-28, 1983 (Report No. 50-10/83-04(DRMS))

Areas Inspected: Facility organization and operation, measurement and controls, storage and internal controls, shipping and receiving, inventory, records and reports, and management of material control system. The inspection involved 54 inspection-hours onsite by two NRC inspectors and was begun during the regular hours. Six inspection hours were conducted offshift.

Results: The licensee was found to be in compliance with NRC requirements in the seven areas examined during the inspection.
