Gentlemen:

Subject: Inspection No. 82-04

This refers to a special inspection by Ms. M. Campbell of this office of your activities involving uranium, a material regulated by the U.S. Nuclear Regulatory Commission, on June 8, 1982 and to the discussions at the conclusion of the inspection between yourself and Ms. Campbell.

The inspection was an examination of your activities as they relate to radiation safety and to compliance with the Commission's rules and regulations. The inspection consisted of selective examinations of procedures and representative records, interviews with personnel, measurements made by the inspector, and observations by the inspector.

Within the scope of this inspection, no violations were identified. We reached this conclusion after a careful review of your activities by our technical and legal staff. Briefly stated, we have concluded that it is legal for you to distribute your product containing uranium to physicians as long as the concentration of uranium is less than 0.05% by weight. Since this appears to be the case, there is no violation of NRC regulations. We have also informed the U. S. Food and Drug Administration of this situation. They plan to review it and inform us of any conclusions they reach regarding compliance with their regulations.

In accordance with Section 2.790 of the NRC's "Rules of Practice," Part 2, Title 10, Code of Federal Regulations, a copy of this letter will be placed in the Public Document Room.

Your cooperation with us in this matter is appreciated.

Sincerely,

Original Signed By:
