Docket No. 50-265

Commonwealth Edison Company
ATTN: Mr. B. Rybak
Nuclear Licensing Administrator
P.O. Box 767
Chicago, IL 60690

Dear Mr. Rybak:

Thank you for your letter dated February 14, 1983, informing us of proposed improvements to your Automated Analytical Instrumentation System (AAIS) Software. These improvements, if adequately implemented, will resolve the concerns we have regarding the AAIS Software which were initially raised following the Quad-Cities inspection (254/82-13, 265/82-15) of August 1982. We anticipate your schedule for completion will provide for timely implementation of these changes.

Thank you for your cooperation.

Sincerely,

C. J. Paperiello, Chief
Emergency Preparedness and
Radiological Safety Branch
