

Thomas G. Galt
9 South Trall
Sharon N.Y. 11786
March 3, 1983

Judge Lawrence Brenner
Nuclear Regulatory Commission
Metromic Building
1717 H. St. N.W.
Washington, D.C. 20555

Dear Judge Brenner,

"Please" listen and
hear the people. Do everything
in your power, to keep the
Sharon Plant from opening.

There is no evacuation
plan, that can be developed
that would eliminate the
possibility of anyone being
hurt or sacrificed. Why do
our children have to live with
this?

Sincerely,
Thomas G. Galt

Judge James Casper
Nuclear Regulatory Commission
Matome Building
1717 H St. N.W.
Washington, D.C. 20555

Dear Judge Casper,

"Please" listen and hear
the people. Do everything in
your power to keep the Shosholen
Black from opening.

There is no evacuation
plan that can be developed
that would eliminate the possibility
of anyone being hurt or sacrificed.

Why do our children
have to live with this?

Sincerely,

Thomas Bruce Hunt

Dear Judge Brenner,

I hope that you will work to insure that the Shoreham Nuclear Plant will not be opened, for the sake of the health and safety of the people in its vicinity. We have already seen the accident which occurred in Three Mile Island. We do not yet know enough about nuclear energy and preventing accidents. As for evacuation plans, I don't think they'd work. The ones which have been written already are so long and complex, that I cannot imagine how anyone in an immediate emergency could follow the plans. The other major problem is storage of nuclear wastes. In the past, some nuclear waste has been dumped in the sea. Containers holding nuclear wastes have been found to have leaks. Fish were found near the containers. Already nuclear pollution may have gotten into our food chain. I saw something about this on T.V. The risks of Shoreham outweigh the gains. I hope you will consider the dangers of the Shoreham Plant, and work to prevent its opening... because if you do, it will benefit us all in the long run. Thank you.

Sincerely,

Avril Opinante
