Mr. Frank P. Gillespie, Director  
Administration and Resource Control Staff    Re: Your letter of May 20, 1982;  
Office of Nuclear Regulatory Commission       our letter of June 20, 1982  
Washington, D. C. 20555

Dear Mr. Gillespie:

In my previous letter (copy enclosed) I explained the reasons for the urgent reconsideration of our proposal "Improvements To The Integral Leak Rate Methodology".

We are a small concern experiencing serious financial difficulties at the moment. I, personally, would be very grateful if the NRC position on the matter were formulated as soon as possible.

Thank you very much. I hope to hear from you soon.

Sincerely,

*Z. Reytblatt*

Z. Reytblatt,
