President
759 Chestnut Street
Springfield, Massachusetts 01107

Gentlemen:

Subject: Inspection 78-01

This refers to the inspection conducted by Mr. C. Stearns of this office on June 15 and 16, 1978, at your Springfield and your Wesson Memorial Hospitals, of activities authorized by NRC License Nos. SNM-1766, 20-01412-05, 20-01412-06 and 20-01495-03 and to the discussions of our findings held by Mr. Stearns with yourself and Dr. Brahmaur of your staff at the conclusion of the inspection.

The inspection was an examination of activities conducted under your licenses as they relate to radiation safety and to compliance with the Commission's rules and regulations and the conditions of your licenses. The inspection consisted of selective examinations of procedures and representative records, interviews with personnel, measurements made by the inspector, and observations by the inspector.

With respect to License No. SNM-1766, the inspection was limited to discussions of your plans for future activities authorized by this license. From these discussions it is our understanding that this license is presently inactive and that you have not received any material authorized by this license. We also understand that you do not plan any use in the near future. If these understandings are incorrect, please inform us in your reply to this letter.

Based on the results of this inspection, it appears that one of your activities was not conducted in full compliance with NRC requirements, as set forth in the Notice of Violation, enclosed herewith as Appendix A. This item of noncompliance has been categorized into the levels as described in our correspondence to you dated December 31, 1974. This

notice is sent to you pursuant to the provisions of Section 2.201 of the NRC's "Rules of Practice," Part 2, Title 10, Code of Federal Regulations. Section 2.201 requires you to submit to this office, within twenty (20) days of your receipt of this notice, a written statement or explanation in reply including: (1) corrective steps which have been taken by you and the results achieved; (2) corrective steps which will be taken to avoid further items of noncompliance; and (3) the date when full compliance will be achieved.

In accordance with Section 2.790 of the NRC's "Rules of Practice," Part 2, Title 10, Code of Federal Regulations, a copy of this letter and your reply will be placed in the Public Document Room.

Should you have any questions concerning this inspection, we will be pleased to discuss them with you.

Sincerely,

Robert O. McClintock, Chief
Materials Radiological Protection
Section
