Gentlemen:

We have completed our review of your revision to the "Physical Security Plan for the Protection of Special Nuclear Material of Moderate or Low Strategic Significance" for the Waterford 3 Steam Electric Station Unit 3, submitted by your letter dated June 28, 1982, and have determined that the revision does not decrease the effectiveness of the plan.

Accordingly, your approved Security Plan as it relates to the protection of special nuclear material of low strategic significance consists of a document submitted by your letter dated July 24, 1981, as revised by letter dated June 1, 1982.

Additionally, we request the provisions of the plan be in effect whenever fresh fuel is stored on site.

Sincerely,

L. J. Evans, Jr., Chief
