

MAR 10 1983

Addressee

Gentlemen:

In the afternoon of April 5, 1983, at the Amfac Hotel, Dallas/Fort Worth Airport, the Nuclear Regulatory Commission will conduct a public meeting concerning its policy of decentralization. Taking advantage of this opportunity, we have planned a meeting for the morning of that day at the same location to discuss two additional matters of interest to Region IV licensees and others: (1) the recent change to 10 CFR Part 50, "Reporting of Change to the Quality Assurance Program," and (2) the proposed rule to allow a Part 50 licensee to depart from a license condition or a technical specification in an emergency. You and members of your organization are invited to attend this meeting.

If you have specific questions you would like discussed during this meeting, please provide them to this office in writing not later than March 21, 1983, to the attention of Mr. C. J. Hale. This meeting should provide licensees and major contractors an opportunity to learn more of the background, highlights, and implementation of these new rules.

If you have any questions regarding the meeting, please call Mr. Hale on (817) 860-8164.

Sincerely,

Original signed by  
John T. Collins

John T. Collins  
Regional Administrator
