

MAR 9 1983

Docket No. 50-2

University of Michigan
Phoenix Memorial Laboratory
ATTN: Dr. William Kerr, Director
Michigan Memorial - Phoenix
Project
Ann Arbor, MI 48109

Gentlemen:

This refers to the routine safeguards inspection conducted by Messrs. T. J. Madaeda and G. L. Pirtle of this office on February 23-25, 1983, of activities at the Ford Nuclear Reactor authorized by NRC Operating License No. R-28 and to the discussion of our findings with Messrs. R. Burn and G. Cook at the conclusion of the inspection.

The enclosed copy of our inspection report identifies areas examined during the inspection. Within these areas, the inspection consisted of a selective examination of procedures and representative records, observations, and interviews with personnel.

No items of noncompliance with NRC requirements were identified during the course of this inspection.

Additionally, we noted that your staff has agreed to review and update several SNM control procedures. If your understanding of these actions, which are described in paragraph 3 of the enclosed report, differ from ours, please notify us.

Areas examined during this inspection concern a subject matter which is exempt from disclosure according to Section 2.790 of the NRC's "Rules of Practice," Part 2, Title 10, Code of Federal Regulations. Consequently, the enclosure to this letter and our report of this inspection will not be placed in the Public Document Room.
