SUBJECT: INFORMATION ITEMS REGARDING THE NRC EVALUATION TEAM  
ASSESSMENT OF THE ZIMMER PLANT - (Board Notification No.  
83-18)

In accordance with present NRC procedures regarding Board Notifications, the enclosed material is provided to the Commission for information. The material in Enclosure 1 provides a brief description of the independent assessment of installed safety related equipment being performed by the NRC Evaluation Team at the Zimmer Plant.

This assessment is part of the Zimmer Plan of Action for reviewing applicant's implementation of the Commission's order suspending construction at the Zimmer Plant. This Plan of Action was previously transmitted to you by William J. Dircks' memorandum of December 17, 1982, (Enclosure 2) in which he stated that you would be kept informed of significant developments throughout the implementation of the NRC staff's Plan of Action. The composition and function of the NRC Evaluation Team are described on page 2 of the enclosed Plan of Action for Zimmer.

The NRC Evaluation Team was at the Zimmer Plant from January 24 through February 11, 1983, comparing the as-built configuration of safety related structures and equipment with design drawings and specifications, testing soils, and making non-destructive measurements of piping and structural components. The non-destructive measurements, and laboratory analysis of samples is continuing. The team is preparing a report for issuance in April 1983. We will continue to keep you informed of developments related to this Plan of Action.
