

OFFICE OF THE  
CHAIRMAN

UNITED STATES  
NUCLEAR REGULATORY COMMISSION  
WASHINGTON, D.C. 20555

February 28, 1983

The Honorable Richard F. Celeste  
Governor of Ohio  
Columbus, Ohio 43215

Dear Governor Celeste:

In 1976, the Nuclear Regulatory Commission adopted recommendations suggested by State organizations, including the National Governors' Association, for streamlining the siting and environmental review process for nuclear facilities. One recommendation was that the States appoint a single person to act as a liaison officer to NRC to improve Federal/State cooperation. Former Governor Rhodes had designated Mr. James R. Williams, Nuclear Preparedness Officer, Ohio Disaster Services Agency, as the Ohio liaison officer.

The NRC staff works closely with the appointed State Liaison Officers (SLO) on all aspects of our programs, including transportation of radioactive waste, siting, environmental matters, decommissioning, emergency response, notification and waste disposal. The State Liaison Officer provides a communication channel between the States and the NRC; is the key person in the State to keep the Governor informed on regulatory or emergency matters of interest to the Governor; keeps other State officials informed on regulatory or emergency matters as appropriate to their interests and/or responsibility; and provides information to NRC on State issues.

I believe the designated State Liaison Officer can be valuable to you. Periodically, there is a need to get word to the Governor on a regulatory matter which might have high interest. I would want you to be completely informed as early as possible and before your office received calls from the media or the public. For example, shortly before the Three Mile Island accident, the NRC ordered the shutdown of a number of nuclear power plants due to concern for inadequacy of the design to withstand earthquakes. Concerned for the impact on ratepayers in the States served by those facilities, the NRC informed the Governors of those States by informing the State Liaison Officers. Also, more recently we notified the Governors through the SLO's of the approved routes through their States for shipments of irradiated reactor fuel and the date this information was going to be made public.

Therefore, I urge you to designate a liaison officer. Please let me know your decision.

The Honorable Richard F. Celeste - 2 -

For additional information, your staff may wish to contact G. Wayne Kerr, Director of our Office of State Programs (301/492-8170) or Mr. James G. Keppler, Regional Administrator, Region III (312/932-2677).

We look forward to having a continued close working relationship with Ohio.

Sincerely,

A handwritten signature in cursive script, reading "Nunzio J. Palladino". The signature is fluid and elegant, with the first name "Nunzio" and last name "Palladino" clearly distinguishable.

Nunzio J. Palladino
