

MAR 02 1983

DOCKET NO: 70-2917

APPLICANT: Tennessee Valley Authority

FACILITY: Bellefonte Nuclear Plant Unit 1

SUBJECT: LICENSE AMENDMENT APPLICATION DATED JANUARY 26, 1983

I. Background

Tennessee Valley Authority is licensed under NRC Materials License No. SIM-1865 for the receipt and storage of fuel and accessories for eventual use in the Bellefonte Nuclear Plant Unit 1. The license is scheduled to expire March 31, 1983. The application requests that the license expiration date be extended to May 31, 1986.

II. Discussion

The need for an extension of the license expiration date is due to construction delays. Extending the expiration date does not affect the radiological safety, nuclear safety, or other parameters on which the issuance of the license was based.

III. Recommendation

On the basis of the above, I recommend that the license extension, as requested by the licensee, be approved.

Tennessee Valley Authority
ATTN: Mr. L. M. Mills, Manager
Nuclear Licensing
400 Chestnut Street Tower II
Chattanooga, Tennessee 37401

Gentlemen:

In accordance with the request contained in your letter dated January 26, 1983, and pursuant to Title 10, Code of Federal Regulations, Part 70, Item 4 of NRC Materials License No. SNM-1865 for Bellefonte Nuclear Plant Unit 1 is hereby amended to read as follows:

4. Expiration date

May 31, 1986, or upon conversion of Construction Permit No. CPPR-122 to an operating license, whichever is earlier.

All other conditions of this license shall remain the same.

Enclosed is a copy of our Safety Evaluation Report (SER) for your information.
