Gentlemen:

We have reviewed the UNC-Montville proposed amendment to the Upgrade Physical Protection Plan relative to the requirements of 10 CFR Part 11.11 which was submitted as an enclosure to your letter dated January 15, 1982. We find this proposed amendment acceptable. However, as you are aware, certain matters regarding acceptance of DOE and other federal agency clearances are being reconsidered by the staff. Moreover, because of current limitations on the processing of special nuclear material access authorizations imposed on the NRC by Congress, we are not able to grant approval at this time. Accordingly, you should wait for notification from this office before taking further action on this matter.

Sincerely,

Original Signed By:
