

UNITED STATES OF AMERICA
NUCLEAR REGULATORY COMMISSION

RE: Docket ID NRC-2019-0241

DTE Electric Company, Docket No. 50-341, Fermi 2, Monroe County, Michigan

**DECLARATION OF AUTHORIZED OFFICER OF CITIZENS' RESISTANCE AT
FERMI 2 (CRAFT) TO FILE AS PRO SE COUNSEL**

Under penalty of perjury, I, Jessie Pauline Collins, declare as follows:

1. I am authorized by the Citizens' Resistance at Fermi 2 (CRAFT), an unincorporated association, whose address is 17397 Five Points Street, Redford MI, 48240, to sign this declaration. CRAFT is formally and organizationally opposed to the issuance of Fermi's license amendment request dated 5 September 2019, ADAMS #ML19248C679, which DTE has submitted a request to the NRC.
2. CRAFT has approximately 1,500 members, most of whom live within 50 miles of the Fermi 2 nuclear reactor. CRAFT is concerned that if the NRC grants the license amendment, it could adversely affect the health and safety and the integrity of the environment in which CRAFT members live and recreate.
3. In order to ensure that the amendment decision for Fermi protects the interests of CRAFT in a safe and healthy environment, the group formally seeks to intervene on behalf of all its members, as well as Wanda Hess, named in the attached declaration in any rulemaking proceeding that concerns the safety and environmental impacts of the Fermi 2 nuclear reactor in Monroe County, Michigan.

I hereby declare under penalty of perjury that the foregoing facts are true and correct and that any expressions of opinion are based on my judgement.
