Docket No. 50-289

Mr. T. Gary Broughton
Vice President and Director, TMI
GPU Nuclear Corporation
Three Mile Island Nuclear Station
Post Office Box 480
Middletown, PA 17057-0191

Dear Mr. Broughton:

SUBJECT: INSPECTION REPORT NO. 50-289/94-11

This letter transmits the findings of an inspection of licensed operator requalification training conducted by J. S. Stewart from June 13 to 17, 1994, at the Three Mile Island Nuclear Station, Unit 1. The inspection was conducted to verify that the Three Mile Island requalification program for licensed operators ensured safe power plant operation by adequately evaluating how well individual operators and crews have mastered training and performance objectives. The inspection findings were based on observations of activities, interviews, document reviews, and were discussed with M. J. Ross and other members of your staff at the conclusion of the inspection.

Overall, the licensed operator training and requalification programs were determined to be excellent. Requalification examination preparation, administration, and evaluation of operator performance were particularly good. A review of recent operational performance shows that the training and requalification programs have been effective in ensuring continued safe operation of the facility.

Sincerely,
