Revision 17 to the Quality Assurance Manual Operations

Gentlemen:

In accordance with 10CFR50.54(a)(3) and 10CFR50.71(e), enclosed are three controlled copies (Copy Nos. 1-3) of Revision 17 to the Arkansas Nuclear One (ANO) Quality Assurance Manual Operations (QAMO). Controlled copies (Copy Nos. 8 and 9) are also being forwarded to Region IV.

The changes made in Revision 17 to the QAMO have been evaluated as required by 10CFR50.54(a) to determine if quality commitments have been reduced. Results of these evaluations have determined that these changes do not reduce any commitments in the quality program description previously accepted by the NRC. The record of revision section of the QAMO identifies changes implemented by Revision 17.

Pursuant to 10CFR50.71(e)(4), future QAMO updates will be submitted 6 months subsequent to the ANO-1 refueling outages. As required by 10CFR50.71(e)(2), I hereby certify that to the best of my knowledge and belief, the information contained in Revision 17 to the QAMO accurately represents changes made since the previous submittal. These changes reflect information and analysis submitted to the Commission or prepared pursuant to Commission requirements or changes made under the provision of 10CFR50.54(a)(3).
