Update Report - Duct Covers
Not Installed
LER 82-138/99 X-1
AECM-83/0291

This is an update to a previous report submitted on December 16, 1982. The event for which the report was submitted occurred on November 12, 1982, when several duct covers were not installed because cables extending through the ducts would not allow their installation. An Limiting Condition for Operation was entered in accordance with Technical Specification 3.7.7. A Special Report was submitted pursuant to Technical Specification 6.9.2.

An engineering evaluation has determined that some barriers should be modified and others do not require modifications. Barriers requiring modification are expected to be restored by June 30, 1983. Attached is LER 82-138/99 X-1.

Yours truly,

L. P. Doherty
for J. P. McGaughy
