Inspection Summary

Inspection on August 30 to September 1, 1982 (Report No. 50-298/82-25(DETP))

Areas Inspected: Facility organization and operation, measurements and controls, shipping and receiving, inventory and inventory verification, storage and internal controls, records and reports, and management of material control system. The inspection involved 20 inspector-hours onsite by one NRC inspector and was begun during the regular hours.

Results: The licensee was found to be in compliance with NRC requirements in the seven areas examined during the inspection.
