Docket No. 50-285

Omaha Public Power District
ATTN: W. E. Miller
Assistant General Manager
Omaha Public Power District
1623 Harney Street
Omaha, NE 68102

Gentlemen:

This refers to the routine safeguards inspection conducted by Mr. A. G. Finley of this office, accompanied by T. J. Madeda of Region III and R. A. Caldwell of Region IV on September 1-3, 1982. The inspection included activities at the Fort Calhoun Nuclear Power Station authorized by NRC Operating License No. DPR-40 and to the discussion of our findings with Mr. W. G. Gates, Manager, Fort Calhoun Station at the conclusion of the inspection.

The inspection was an examination of activities conducted under your license as they relate to radiation safety and to compliance with the Commission's rules and regulations and with the conditions of your license. The inspection consisted of a selective examination of procedures and representative records, observations, and interviews with personnel.

No items of noncompliance with NRC requirements were identified during the course of this inspection.

Areas examined during the inspection concern a subject matter which is exempt from disclosure according to Section 2.790 of the NRC's "Rules of Practice," Part 2, Title 10, Code of Federal Regulations. Consequently, our report of this inspection will not be placed in the Public Document Room.
