Docket No. 50-358

U.S. Nuclear Regulatory Commission
Region III
799 Roosevelt Road
Glen Ellyn, Illinois 60137

Attention: Mr. J.G. Keppler
Regional Administrator

Gentlemen:

RE: WM. H. ZIMMER NUCLEAR POWER STATION - UNIT 1
10CFR50.55(e), ITEM M-29
W.O. 57300, JOB E-5590 FILE 956C, M-29

CG&E has recently been made aware that the NRC was not formally notified of our activities in qualifying weld procedures consistent with our response to 10CFR50.55(e), M-29 (QA-2248) of February 7, 1983, which stated, "New Welding Procedures will be developed for future welding at Zimmer and qualified under controlled conditions."

We believe that these activities are in compliance with the intent of the Order to Show Cause and Order Immediately Suspending Construction of November 12, 1982.

It is our intent to continue this activity, and we trust that this notification will be acceptable.

Very truly yours,

THE CINCINNATI GAS & ELECTRIC COMPANY
