Docket Nos.: 50-443
50-444

Mr. William C. Tallman
Chairman and Chief Executive Officer
Public Service Company of New Hampshire
Post Office Box 330
Manchester, New Hampshire 03105

Dear Mr. Tallman:

Subject: Seabrook Safety Evaluation Report

The NRC schedule for review of Seabrook operating license application provides for publication of the Safety Evaluation Report (SER) on February 10, 1982. However, a review of the draft of the SER indicates there is an excessive number of open items, and this precludes release for publication.

Arrangements are being made between your representatives and the NRC staff to resolve a substantial number of open items in the very near future to permit issuance of the SER. This effort requires strong management participation if the SER is to be published in a timely manner.

Please ensure this effort is given full management support. The SER will not be published until the number of open items is reduced to an acceptable level.

Sincerely,

Original signed by:
Thomas M. Novak
