

UNITED STATES  
NUCLEAR REGULATORY COMMISSION

WASHINGTON, D. C. 20555-0001

August 12, 1994

Docket No. 50-263

Mr. Roger O. Anderson, Director  
Licensing and Management Issues  
Northern States Power Company  
414 Nicollet Mall  
Minneapolis, Minnesota 55401

Dear Mr. Anderson:

SUBJECT: REQUEST FOR WITHHOLDING INFORMATION FROM PUBLIC DISCLOSURE

By your application and affidavit dated June 30, 1994, you submitted information on Northern States Power Company's (NSP) plans to resolve the core spray header crack issue. This letter provided as an enclosure a design drawing (107E5439, Sheet 2, Rev 0 (4 pages)) marked "NSP Proprietary" which you requested be withheld from public disclosure pursuant to 10 CFR 2.790.

You stated that the submitted information should be considered exempt from mandatory public disclosure for the following reasons:

1. The information discloses a process, method, or apparatus, including supporting data and analysis, where prevention of its use by NSP's competitors without license from NSP constitutes a competitive economic advantage over other companies;
2. The information, if used by a competitor, would reduce his expenditure of resources or improve his competitive position in the design, manufacture, installation, assurance of quality, or licensing of a similar product; and
3. The information reveals aspect of past, present, or future NSP funded development plans and programs of potential commercial value to NSP.

We have reviewed your application and the material in accordance with the requirements of 10 CFR 2.790 and, on the basis of your statements, have determined that the submitted information sought to be withheld contains trade secrets or proprietary commercial information.

Therefore, the enclosure to your June 30, 1994, letter, NSP design drawing 107E5439, Sheet 2, Rev 0 (provided on 4 pages and marked as proprietary), will be withheld from public disclosure pursuant to 10 CFR 2.790(b)(5) and Section 103(b) of the Atomic Energy Act of 1954, as amended.

Withholding from public inspection shall not affect the right, if any, of persons properly and directly concerned to inspect the documents. If the need arises, we may send copies of this information to our consultants working in this area. We will, of course, ensure that the consultants have signed the appropriate agreements for handling proprietary information.

If the basis for withholding this information from public inspection should change in the future such that the information could then be made available for public inspection, you should promptly notify the NRC. You also should understand that the NRC may have cause to review this determination in the future; for example, if the scope of a Freedom of Information Act request includes your information. In all review situations, if the NRC makes a determination adverse to the above, you will be notified in advance of any public disclosure.

Sincerely,

Original signed John Hickman for

Beth A. Wetzel, Acting Project Manager  
Project Directorate III-1  
Division of Reactor Projects - III/IV  
Office of Nuclear Reactor Regulation
