South Carolina Electric and Gas Company  
ATTN: Mr. O. W. Dixon, Jr.  
Vice President, Nuclear Operations  
P. O. Box 764 (Mail Code F-04)  
Columbia, SC 29218

Gentlemen:

Subject: Report No. 50-395/82-57

This refers to the routine safety inspection conducted by Mr. W. H. Miller, Jr. of this office on November 17-19, 1982, of activities authorized by NRC License No. NPF-12 for the Summer facility. Our preliminary findings were discussed with Mr. O. S. Bradham, Station Manager, at the conclusion of the inspection.

Areas examined during the inspection and our findings are discussed in the enclosed inspection report. Within these areas, the inspection consisted of selective examinations of procedures and representative records, interviews with personnel, and observations by the inspector.

During the inspection, it was found that certain activities under your license appear to violate NRC requirements. This item, and references to pertinent requirements are listed in the Notice of Violation enclosed herewith as Appendix A. Elements to be included in your response are delineated in Appendix A.

In addition to the need for corrective action regarding this specific violation, we are concerned about the implementation of your management control systems that permitted its occurrence. We are concerned that the personnel, who were aware of this surveillance requirement, did not take action until informed by the NRC. Consequently, in your reply, you should describe in particular those actions taken or planned to improve the effectiveness of your management control systems and the action taken to verify that required surveillance tests and inspections have been conducted.

We have examined actions you have taken with regard to previously identified enforcement matters. These are discussed in the enclosed inspection report.

One new unresolved item is identified in the enclosed inspection report. This item will be examined during subsequent inspections.

In accordance with 10 CFR 2.790(a), a copy of this letter and the enclosure will be placed in the NRC's Public Document Room unless you notify this office, by telephone, within ten days of the date of this letter and submit written application to withhold information contained therein within thirty days of the date of this letter. Such application must be consistent with the requirements of 2.790(b)(1).

JAN 28 1983

The responses directed by this letter and the enclosures are not subject to the clearance procedures of the Office of Management and Budget as required by the Paperwork Reduction Act of 1980, PL 96-511.

Should you have any questions concerning this letter, we will be glad to discuss them with you.

Sincerely,

R. C. Lewis, Director  
Division of Project and  
Resident Programs
