Dear Mr. Harrison:

Subject: Fuel Load Date for Seabrook Unit 1

On November 16-17, 1982 the NRC Caseload Forecast Panel (CFP) visited Seabrook Station to obtain information to use as a basis for developing a judgement regarding the reasonableness of your projected fuel load date. On December 2, 1982 you informed the NRC of a revised fuel load of September 1984. A related press release stated that you were having an independent consultant review your revised fuel load date.

Your representatives have indicated that the data provided to the CFP during the site visit is now being reevaluated and revisions may result from this effort. They have further indicated a desire to meet with the NRC to ensure the CFP is provided the best available data for developing its conclusions.

In view of the above, you are invited to have your representatives meet with the staff at the NRC headquarters in Bethesda, Maryland on April 8, 1983 at 9:00 AM. The staff will be represented by Division of Licensing management and the CFP. A meeting notice will be issued in the near future in accordance with the NRC policy on staff meetings with applicant representatives.

Questions regarding this matter should be directed to the NRC Seabrook Project Manager, Mr. Louis Wheeler, (301)492-7792.

Sincerely,

ORIGINAL SIGNED BY

George W. Knighton, Chief  
Licensing Branch No. 3  
Division of Licensing
