In the Matter of
Philadelphia Electric Company
(Limerick Generating Station, Units 1 and 2)
Docket Nos. 50-352 and 50-353

Gentlemen:

On June 10, 1983, Judith A. Dorsey, Counsel for Limerick Ecology Action ("LEA"), wrote to the Licensing Board presenting its position with regard to contentions related to NUREG-0737 in accordance with the May 16, 1983 Memorandum and Order Confirming Schedules Established During Prehearing Conference. As clarified with discussions with Ms. Dorsey, Applicant does not object to the position being taken by LEA in that letter.

With regard to Contention I-33E, LEA notes TMI Action Plan Items I.D.1, II.F.1, II.D.3 and II.B.2 as applicable. LEA further states:

LEA has no additional contentions to file at this time based upon the new information submitted by the applicant.

When the control room design review itself is completed and available, LEA will submit contentions if necessary.

LEA's reservation with regard to the submission of contentions on control room design review is applicable to the first three indicated TMI Action Plan items. As to the last item, II.B.2, the Applicant's discussion of shielding of the control room which is contained in the Final Safety Analysis Report, Section 1.13 at pp. 1.13-20 through 1.13-26i and Table 1.13-1 has satisfied that portion of Contention I.33E.

Sincerely,

Mark J. Wetterhahn
Counsel for Applicant
