Director of Nuclear Reactor Regulation
Attention: Mr. B. J. Youngblood, Chief
Licensing Branch No. 1
Division of Licensing
U. S. Nuclear Regulatory Commission
Washington, D. C. 20555

Dear Mr. Youngblood:

Reference: Enrico Fermi Atomic Power Plant, Unit 2
NRC Docket No. 50-341

Subject: Response To Supplement 1 of NUREG-0737,
"Requirements for Emergency Response
Capability (Generic Letter 82-33)",
November 17, 1982

As requested by the NRC Project Manager, M. David Lynch,
Edison hereby documents its best estimate for the scheduled
completion date for the specified items. These dates
supplement the dates provided in our April 15, 1983 letter
(EF2 - 62,262):

Emergency Response Facilities:

Date of Operational Technical Support Center - July, 1983

Date of Operational Operations Support Center - October, 1983

Date of Operational Emergency Operations Facility - July, 1983

Note: Operational is defined as available and capable of
being staffed to respond to an emergency without
the Emergency Response Information System (Auto-
mated data acquisition system and SPDS).
