Office of Administration

Dear Connie,

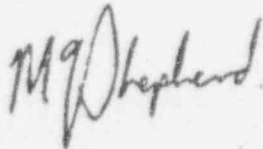

RE: FOIA REQUEST NO 92-118

I am writing to inquire as to the progress of the request for information regarding the suitable specifications of concrete for stabilising and conditioning low level radioactive waste for shallow ground burial which I made on 9 March 1992. I received information from your office dated 31 March 1992 instructing me to send a cheque made payable to the US Nuclear Regulatory Commission comprising \$73.24 for the search and \$25.20 for duplication. I responded to this by sending a cheque for \$98.44 on 3 April 1992 (see following page). Since then I have received no further correspondence from your office.

Could you please inform me by fax as to the status of my request.

Thanking you in anticipation.

Regards,

DR MARK SHEPHERD
Associate
