Dear Mr. O'Reilly:

Re: Turkey Point Units 3 & 4  
St. Lucie Unit 1  
Docket Nos. 50-250, 50-251, 50-335  
IE Bulletin 83-03

We have reviewed IE Bulletin 83-03 (Check Valve Failures in Raw Water Cooling Systems of Diesel Generators) as it applies to Turkey Point Units 3 and 4 and St. Lucie Unit 1, and have reviewed our diesel generator cooling water systems. Our closed cooling radiator systems contain no check valves according to the prints and physical verification and, as such, the Bulletin does not apply.

Should you or your staff have any questions on this information, please contact us.

Very truly yours,
