FROM: W. E. Campbell, Jr., MSEB, DET, RES

SUBJECT: SwRI PROJECT, "SEISMIC QUALIFICATION OF NUCLEAR PLANT
MECHANICAL AND ELECTRICAL EQUIPMENT", CONTRACT NRC-04-81-185

On March 15, 1983, NRC received the Task 2 Summary Report in draft form, for SwRI project 02-6582. SwRI has requested comments by April 15, 1983, not only from NRC but also the "Peer Review Group." Since I anticipate being on travel commencing April 8, your comments on that draft are requested prior to April 1, 1983.

Also attached are copies of Task 1 Summary Report Parts I and II. Current plans are to issue a NUREG with a number of volumes. I anticipate the first volume will contain at least the Summary Report for Task 1, possibly it will contain the Summary Report for Task 2.

W. E. Campbell, Jr.
Mechanical/Structural Engineering Branch
Division of Engineering Technology

Enclosures:

1. Task 1 Summary Report Part I
2. Task 1 Summary Report Part II
3. Task 2 Summary Report (Draft) 3/11/83
