## Telephone Conversation Record

Date: March 11, 2020

License No. 06-00649-03

Docket No.(no hyphens): 03001242

Mail Control/Report No. 617937

Licensee Name: Middlesex Hospital

Participant(s) Name/Title: Jason Marsden, Radiation Safety Officer (RSO)

Work Telephone No. 860-358-6470

NRC Representative Name/Title: Janice Nguyen, Senior Health Physicist

Subject: Confirmation of Unit Dosages of Ga-68

Discussion: The licensee requested an amendment to add the use of Ga-68 dotatate for imaging and localization studies. I confirmed with Mr. Marsden that they will be receiving unit dosages of Ga-68 from their radiopharmacy. In this case, the dosages will fall under 10 CFR 35.200, which they are already licensed for, so no amendment is required. If they were requesting the use of a Germanium-68/Gallium-68 generator, it would require an amendment since it would then fall under 10 CFR 35.1000. I explained to Mr. Marsden that no amendment is required and I will reiterate this in a notification letter.

Action Required: No amendment required. Issue notification letter.
