Thank you very much for your letter reporting the results of the inspection conducted at our licensed fuel fabrication plant by Mr. J. W. Sabados of your office on February 8-11, 1983.

Pertaining to the two items of apparent noncompliance with NRC requirements in your letter, the replies to these items are given in the attachment to this letter.

We appreciate your inspector's comments and suggestions related to our safeguards programs. These comments and suggestions are helpful to us in our constant efforts to maintain and, where necessary, improve these programs and to ensure the continuation of a successful safeguards effort at our plant.
