Attn: Ms. Betty Wright

Dear Ms. Wright,

We would like to amend an export license dated October 18, 1990. The export license number that was assigned by the NRC is XSNM02569. The changes are as follows:

- Maximum Element Weight: From 16,583 KGU to 18,091 KGU
- Maximum Weight Percent: Remains the same at 4.15%
- Maximum Isotope Weight: From 689 KGU235 to 751 KGU235

We greatly appreciate your cooperation in amending the above figures. Should you have further questions please feel free in contacting me at (212) 605-2150.

Sincerely,

T. Sakurada, Manager, Advanced Metals &
Nuclear Fuel Dept., Non Ferrous Metal
Division
