Office of Administration

SUBJECT: REVIEW OF SECY-92-394 "PROPOSED RULE ON
TIMELINESS IN DECOMMISSIONING OF MATERIALS
FACILITIES"

The Rules Review and Directives Branch (RRDB) has reviewed SECY-92-394 that presents the proposed rule that would require timely decontamination and decommissioning by nuclear material licensees. We have attached a marked copy of the proposed rule that presents minor editorial and format corrections. These corrections should be made before the proposed rule is submitted for publication in the Federal Register.

Beth St. Mary, Information Records Management Branch, has informed RRDB that this rule cannot be released for publication in the Federal Register until further notice from their office. You should contact Beth St. Mary (492-8540) for further guidance concerning this matter.

If you have any questions regarding our comments, please contact Michael T. Lesar on 492-7758 or Alzonja Shepard on 492-7651.
