RESPONSE SHEET

RELEASED TO THE PDR  
9/12/94  
date initials

TO: John C. Hoyle, Acting Secretary of the Commission  
FROM: THE CHAIRMAN  
SUBJECT: SECY-94-163 - REVISIONS TO REGULATORY REQUIREMENTS FOR REACTOR PRESSURE VESSEL INTEGRITY IN 10 CFR PART 50

Approved  w/cmt. Disapproved \_\_\_\_\_ Abstain \_\_\_\_\_  
Not Participating \_\_\_\_\_ Request Discussion \_\_\_\_\_

COMMENTS:

I withhold until after the public comment on the proposed revisions to 10 CFR Part 50 my decision on the staff recommendations for providing an opportunity for a public hearing relating to thermal annealing at particular plants.

I approve the issuance of the proposed revisions to 10 CFR Part 50 described in SECY-94-163 and the draft Regulatory Guide DG-1027 for public comment. The staff should also elicit comment on the structuring of the process with regard to opportunities for public participation related to thermal annealing and the commenter's basis recommending a particular process. The staff should include a discussion of options that it has considered in the solicitation for public comment.
