Mr. Robert A. Clark, Chief
U. S. Nuclear Regulatory Commission
Office of Nuclear Reactor Regulation
Division of Licensing
Operating Reactors Branch No. 3
Washington, D.C. 20555

Reference: Docket No. 50-285

Dear Mr. Clark:

Response to Pressurized
Thermal Shock Issue

The Commission's letter dated February 2, 1983 to Omaha Public Power District requested additional information concerning the District's plan for resolving the pressurized thermal shock (PTS) issue for the Fort Calhoun Station. Prior to receiving that letter, the District submitted a letter to the Commission, dated January 28, 1983, concerning the PTS issue. The District's January 28, 1983 letter contains adequate information to answer all of the Commission's requests in the February 2, 1983 letter. Please consider our January 28, 1983 letter to be the District's response to your February 2, 1983 letter.

Sincerely,

R L Jaworski for
