Dear Mr. Smith:

SUBJECT: Emergency Preparedness (EP) Exercise Inspection 50-277/94-20,  
50-278/94-20

Enclosed is the report of the August 22-24, 1994 inspection, led by Mr. J. Lusher, of the Peach Bottom Atomic Power Station Emergency Preparedness (EP), full-participation, exercise conducted on August 22, 1994. Our inspection findings were based on observations by the inspectors, discussions with your staff, and reviews of documents. The preliminary NRC findings were discussed with Mr. W. H. Smith and other members of your staff by Mr. Lusher, at the end of the inspection on August 24, 1994.

Overall, the onsite performance was very good and demonstrated that the emergency plan and procedures for the facility met NRC requirements and that the plant staff is capable of implementing them. No violations or exercise weaknesses were identified. However, an area where potential improvement could be realized was identified by your staff in the deployment of emergency repair team from the Operational Support Center. Corrective action was being pursued for this issue.

No reply to this letter is required. Thank you for your cooperation.

Sincerely,

Original Signed By:
