

Docket No. 70-600

APR 8 1983

Seattle University  
School of Science and Engineering  
Seattle, Washington 98122

Attention: Terry Van Der Werff, Ph.D  
Dean

Gentlemen:

Subject: NRC Inspection

This refers to the inspection conducted by Messrs. G. Nelson and A. Wieder of this office on March 28, 1983 of activities authorized under NRC License No. SNM-589. It also refers to the discussion of our inspection findings with Dr. Frank Valente and Dr. Reed Guy at the conclusion of the inspection.

The areas examined during the inspection included your program for controlling and accounting for special nuclear material pursuant to applicable provisions of Part 70, Title 10, Code of Federal Regulations, and specific requirements of NRC License No. SNM-589. Within these areas, the inspection consisted of selective examinations of procedures and records, interviews with University personnel and observations by the inspectors.

No items of noncompliance with NRC requirements were identified within the scope of this inspection.

In accordance with Section 2.790(d) of the NRC's "Rules of Practice," Part 2, Title 10, Code of Federal Regulations, documentation of findings of your control and accounting procedures for safeguarding special nuclear materials are exempt from disclosure; therefore, the inspection report will not be placed in the Public Document Room and will receive limited distribution.
