Re: Additional Information for License No. SMB-602, Control No.89-504

Dear Mr. Madera:

RMI Titanium Company Extrusion Plant requests that its Source Materials License, SMB-602, be converted to Possession Only status. All operations concerning licensed material were terminated and the licensed material was removed on December 9, 1988. Only small amounts of residue and contamination remain. The License was kept active in the event operations were resumed. The prospect of re-starting operations is unlikely therefore, RMI will prepare for decommissioning of the site.

A complete site characterization study is currently underway and a detailed decommissioning plan is being developed; both will be submitted to the Commission upon completion.

Additional changes are:

- Licensee in Section 1 of the License should read RMI Titanium Company Extrusion Plant.
- Under Condition 12, the Radiation Safety Officer will be Joseph N. Rizzi. A resume of education, experience and training is attached.

Amendments to the Supplemental Section of the License:

- Supplement 4 - The contact person is Joseph N. Rizzi, Health Physicist.

RESUME OF EDUCATION AND EXPERIENCE

NAME: Joseph N. Rizzi

TITLE: Health Physicist

EDUCATION: BS degree in Chemical Engineering from the University of Pittsburgh, Pittsburgh, PA

18 credit hours towards a Masters degree in the Radiological Health program at the University of Pittsburgh, Pittsburgh, PA

EXPERIENCE: 1 year at Shippingport Atomic Power Station in Shippingport, PA working for Duquesne Light Co. as a Radiological Engineer.

4 years with the Pennsylvania Department of Environmental Resources, Bureau of Radiation Protection as a Radiation Health Physicist in the Harrisburg and Pittsburgh offices.

Currently the Health Physicist for RMI Titanium Co. Ashtabula, OH.

TRAINING: Duquesne Light Co. health physics training course.

5 week health physics course by Oak Ridge Associated Universities, Oak Ridge, TN.

"Reducing Radon in Structures", 3 day course sponsored by the Pennsylvania DER

"Compliance with the New 10 CFR 20" 3 day course sponsored by Technical Management Services, Inc.

Radiation Worker Training as specified in DOE Order 5480.11.

- Supplement 10 - Instrumentation - The following instruments are used:

<u>Number</u>	<u>Manufacturer</u>	<u>Model</u>	<u>Type</u>
2	Bicron	Analyst	GM
2	Bicron	RSO-5	ion chamber
4	Eberline	ESP-1	alpha scint.
5	Eberline	ESP-2	alpha scint.
4	Eberline	SAC-4	alpha scint.
3	Eberline	BC-4	GM
2	Ludlum	3	GM
2	Ludlum	12	gamma scint.
23	Ludlum	177	GM
4	Victoreen	450	ion chamber
2	Victoreen	450P	ion chamber
4	Victoreen	190	GM
2	Nuclear Meas. Corp.	ACS-82	gas prop.
1	Nuclear Meas. Corp.	GA-2	gamma alarm

- Supplement 10 - Personnel Dosimetry - Personnel dosimeters will be changed quarterly due to low exposures received by workers.

If there are any questions regarding this amendment application, please contact Joseph Rizzi at FTS 292-2217.

Sincerely,

RMI TITANIUM COMPANY
