Docket No. 50-333

Power Authority of the State of New York
ATTN: Mr. J. P. Bayne
Executive Vice President - Nuclear Generation
123 Main Street
White Plains, New York 10601

Gentlemen:

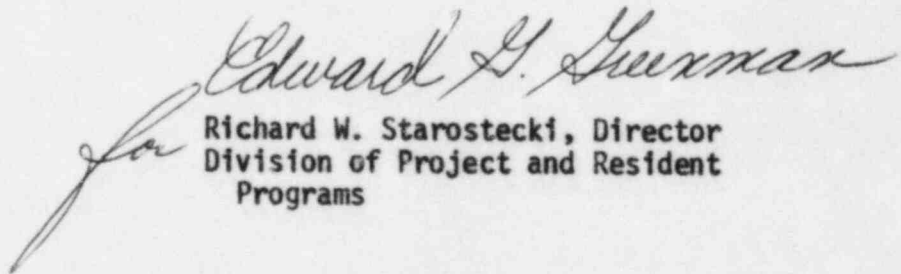

Subject: Inspection 50-333/82-08 and SALP Report

This refers to your letters dated January 7 and March 10, 1983, in response to our letters dated May 14 and 19, 1982.

Thank you for informing us of your revised schedule regarding your Plant Drawing Update Program at the FitzPatrick Plant. We consider this an acceptable approach toward producing a set of drawings which accurately reflect the as-built condition of the plant. We also concur that it is essential that those drawings of systems important to safety and routinely used in the operation of the facility be brought up to date as quickly as possible. Your progress in revising those drawings will be examined during future inspections. It is requested that you provide a progress report of your efforts, including a schedule of completing the work, by December 1, 1983. Your submittal should also describe your program for continued maintenance of as-built drawings.

Your cooperation with us is appreciated.

Sincerely, Original Signed By:
