Dr. Martin Pilch
Severe Accident Phenomenology
Sandia National Laboratories
P. O. Box 5800
Albuquerque, NM 87185

Dear Dr. Pilch:

SUBJECT: ~~FORWARDING~~ THE SASM TPG SCALING REPORT

Enclosed please find a draft report titled "An Integrated Structure and Scaling Methodology For Severe Accident Technical Issue Resolution" that was prepared by the TPG.

As you recall during the SNL scaling review meeting that was held in Rockville, MD, April 10-11, 1991, the view was expressed that the SASM TPG methodology should also be applied in the SNL and ANL tests to establish appropriate set of initial conditions. The enclosed report is, therefore, provided to you for review and use as appropriate. A copy of this report was put in the NRC PDR.

Sincerely,

A handwritten signature in cursive script, appearing to read "F. Eltawila", followed by a horizontal line.

Farouk Eltawila, Chief
Accident Evaluation Branch
Division of Systems Research
Office of Nuclear Regulatory Research
