

APR 8 1983

Gentlemen:

We plan to resume the Kress Creek radiological survey that was suspended in mid-December 1982. The survey was described in our letter of November 12, 1982. Weather permitting, we expect the crew from Oak Ridge Associated Universities to be in the field beginning sometime during the week of April 11, 1983.

If you have any questions, or wish to discuss the survey further, please contact Martin Schumacher (932-2514) or Carl Paperiello (932-2517) of this office. Thank you for your cooperation.

Sincerely,

J. A. Hind, Director  
Division of Radiological and  
Materials Safety Programs
