Dear Sirs:

Trojan Nuclear Plant Organization

The purpose of this correspondence is to notify you of changes in the organizational structure within Portland General Electric (PGE) Company as it applies to oversight and management of the Trojan Nuclear Plant. I have temporarily assumed the duties of Acting Vice President and Chief Nuclear Officer and Vice President Nuclear, from Mr. James E. Cross, who is no longer affiliated with PGE. I will be responsible for the duties of the Vice President and Chief Nuclear Officer and Vice President Nuclear until the Trojan Technical Specifications are revised.

My long-term titles are Trojan Site Executive and Plant General Manager. I report directly to Mr. Richard E. Dyer, Vice President, Power Resources and Marketing. Mr. Dyer reports to Mr. Richard G. Reiten, PGE President.

I am responsible for Trojan activities, including the execution of Nuclear Regulatory Commission correspondence related to Trojan. Correspondence that was previously transmitted to Mr. Cross should now be directed to my attention.

If you have any questions concerning this information, please contact Mr. Tom Walt of my staff at (503) 464-8370.

Sincerely,

*Stephen M. Quennoz*
