ATTENTION: MR. R. W. BORCHARDT

SUBJECT: QUICK LOOK DATA REPORT FOR AP600 LONG TERM COOLINGS TESTS
AT OREGON STATE UNIVERSITY: MATRIX TESTS SB11, SB19

Dear Mr. Borchardt:

Enclosed with this letter are two reports describing the results of tests performed at the AP600 Long Term Cooling Test Facility at Oregon State University. These Quick Look Data Reports (QLR) summarize the test conditions and measured data for matrix tests SB11 and SB19.

Enclosure 1 Quick Look Test Report for LTCT Matrix Test SB11 [LTCT-T2R-031]
Enclosure 2 Quick Look Test Report for LTCT Matrix Test SB19 [LTCT-T2R-039]

The purpose of these data reports is to provide the NRC staff with information on AP600 matrix tests of sufficient depth to enable early evaluation and analysis of test results.

An electronic copy of the test data included in the QLRs is provided as Enclosure 3 on a single 4mm data cartridge. The test data files are ASCII files which were archived on the data cartridge using Palindrome Network Archivist™ Version 2.0f.

The QLRs and data cartridge contain Westinghouse proprietary information and is identified as preliminary. This information will be incorporated in the Final Test Report. With the publication of the Final Test Report, the preliminary identification will be removed and a non-proprietary version of the Final Test Report will be prepared.

The Westinghouse Electric Corporation copyright notice, proprietary information notice, application for withholding and affidavit are attached.

This submittal contains Westinghouse proprietary information consisting of trade secrets, commercial information or financial information which we consider privileged or confidential pursuant to 10CFR2.790. Therefore, it is requested that the Westinghouse proprietary information attached hereto be handled on a confidential basis and be withheld from public disclosures.
